

Small user application - inspiratieboek

Olod User Experience

E. Rutsaert, T. De Paepe - academiejaar 2019-2020

Horoscopia

Dylan Vandenberg - 1AVDa

Alle assets die gebruikt zijn, met uitzondering van de fonts, door mijzelf in Adobe Illustrator gemaakt.

De bronnen die ik in deze PDF toon zijn dus niet de bronnen waar ik de effectieve assets uit gehaald heb, maar vanwaaruit ik inspiratie heb gehaald om mijn design te maken.

Daarom ziet geen enkele asset die ik in het ontwerp heb gebruikt er exact hetzelfde uit als in deze inspiratie-pdf.

NODE

Human beings have designed spaces to host our interactions — to stage our experiences — for thousands of years. In traditional architecture, we have a rich field that can serve as a springboard to for the design of effective information environments. However, much of the discussion in the field of information architecture has focused on linguistic approaches to the structuring of information environments. The designers of many of these “virtual spaces” have thus far approached these design challenges as literary exercises on one extreme, and as visual design exercises on the other.
